## About DirectWomen

DirectWomen is the only organization whose mission is to increase the number of women attorneys on the boards of public companies. DirectWomen identifies, develops and supports a growing group of leading women lawyers from around the country who are able to provide the experience, independence, business judgment and diversity required for service on corporate boards. Research consistently demonstrates that increasing the representation of women on boards makes corporations more successful and profitable, as companies with the most women board members, financially outperform, on average, those with the fewest women board members. DirectWomen serves as a resource for companies seeking qualified women board candidates, who will improve corporate governance and increase shareholder value.

*Board Institute Class of 2014*

A centerpiece of DirectWomen's work is its renowned annual Board Institute. Each year, DirectWomen identifies a select group of approximately 20 distinguished women attorneys to attend the multi-day DirectWomen Board Institute. At the Institute, class members meet with a distinguished faculty of top business executives, board members and experts on corporate governance to discuss some of the key issues facing boards, with the goal of providing support for women seeking to serve as directors of public corporations. Since the formation of DirectWomen in 2006, 20% of the alumnae of the Board Institute have been invited to join corporate boards. For more information about DirectWomen or our Board Institute, we invite you to visit our website at [www.directwomen.org](http://www.directwomen.org).
